

MALICIOUS MISCHIEF

May Day!

May the first is International Workers Day, better known as May Day. The origins of May Day lie way back in 1887 when eight Anarchists were executed for organizing the struggle for the eight hour day in the US.

They were framed for throwing a bomb into police lines at a demonstration on May the fourth the previous year. It has never been proven who threw the bomb though the innocence of the eight Anarchists has been proven beyond doubt as has the fact that they were executed for their political views.

In 1889 the Second International called for May first to be a day of international demonstrations in memory of the Haymarket martyrs. The events of May Day 1890 were considered such a success that it was adopted as an annual day of protest.

For the last one hundred and eighteen years Anarchist, Socialists and Communist have demonstrated against capitalism and the injustices it forces upon the working class.

Day in day out we are forced to sell our labour and are then bombarded with messages asking us to spend our wages on the products we, as a class have created. The sham is one of epic proportions, buying back what we have made ourselves from those who have had no hand in its production themselves.

If a person is unable to find work or simply doesn't want to they are scorned as trying to get something for nothing whereas those at the top of the heap who get a whole lot of something for nothing are rarely, if ever criticized.

This system has been single handedly responsible for wars, environmental devastation, the destruction of our communities and the theft of the wealth of the world.

May Day is but one day in the year when we can take back our lives if only for a brief moment and say no! This is what it means to be human, to live and love and create our own world free from exploitation, greed and theft.

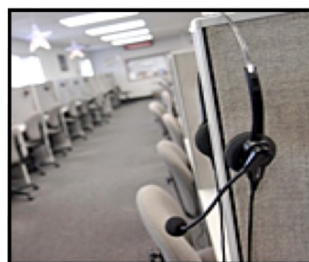

It is only one day yes, but we have to start somewhere.

**WORK
GETTING
YOU
DOWN?**

MAY DAY

**CALL IN
SICK OF
IT ALL!!!**

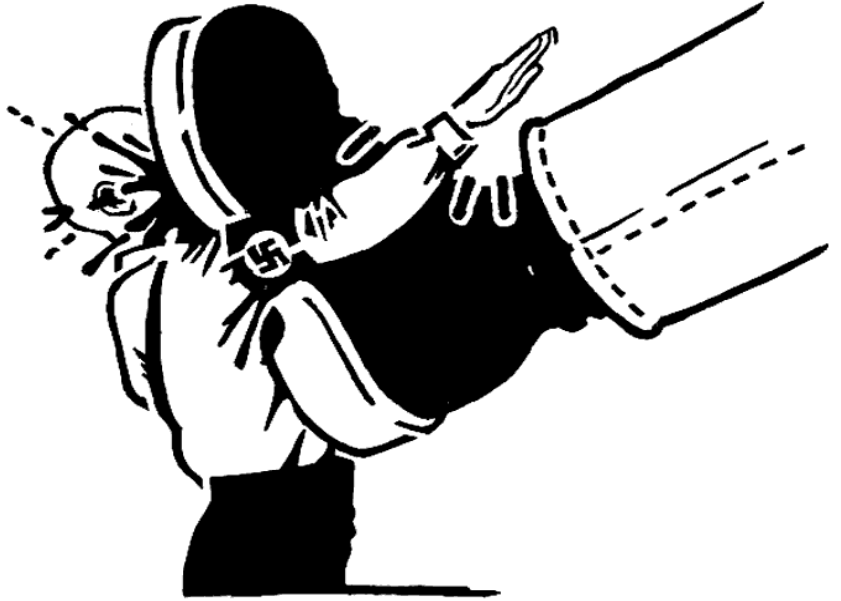

**THURSDAY MAY THE FIRST
BUCHANAN ST TUBE
12:00 NOON**

Merchants Of Death Stalk City Streets

Recently we have seen an unwelcome presence on the streets of Glasgow. Shadowy figures threatening to undermine all that is good in society and wreak chaos and bloodshed across the land. Yes it is true, the British National Party are back on the streets of Glasgow. On two Saturdays in April these putrid harbingers of chaos have been attempting to peddle their message of hate and fear on Buchanan street and Sauchiehall street. Thankfully both times they have reared their ugly heads they have been confronted by an alliance of various left wing groups who have chased them back under the rock they crawled from.

Some may think that hounding them from the streets denies them their freedom of speech. We say that there can be no platform for Fascism. People of earlier generations fought in wars against these people and their genocidal aims, we do them a massive disservice if we allow the BNP to preach their hate anywhere.

Adolf Hitler himself once said that the only way they (the German Nazi Party) could have been stopped was if their enemies had seen them for what they were and had smashed them in their infancy. This is the only time you will ever find us agreeing with him.

No Platform For Fascism!
They Shall Not Pass!
No Pasaran!

Glasgow For Sale

Glasgow City Council are up to their old tricks again, not content with having sold off our libraries, art galleries and museums they now have their sights set upon our green spaces. The city chamber gangsters have now given the green light to sell of a chunk of Pollock Park to the 'leisure' company Go Ape! who want to charge people £25 to enjoy the 'facilities' they build in our park! Pollock Park was given to the people of the city for their enjoyment and recreation. How dare the council sell parts of our heritage to private interest! It is OUR park not theirs. But then again what else are we to expect of a council that so gladly dispose of their social housing stock to a private company and see our cities assets as something to be sold to the highest bidder rather than something that belongs to all of us.

Crooks the lot of them.

Glasgow Anarchists Wish You A Very Happy May Day

Unity In The Community

The Unity centre in Govan has for the past two years been an invaluable source off hope for the six thousand asylum seekers who are currently resident in Glasgow. Asylum Seekers and their families are treated not as second class citizens, that's those of us from the UK, but as third or fourth class citizens. They are treated as criminals, liable to detention at the whim of a bureaucrat and forced to survive on £33 a week. That's less than the dole and anyone who has had to survive on paltry state benefits knows that it is next to impossible. They are denied the right to work to support themselves and forced to live on pittance.

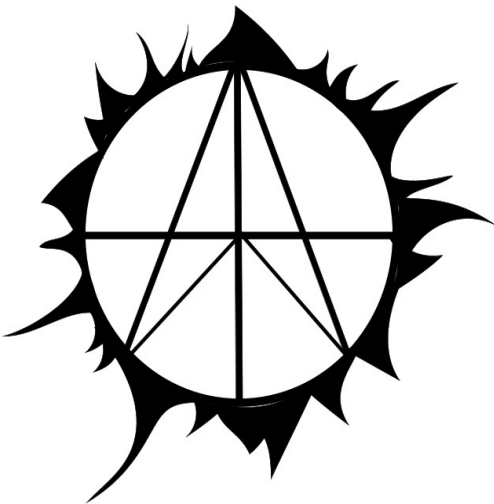

Housing provision for Asylum Seekers is horrendous. One group that are particularly criminal in their treatment of Asylum Seekers is the Angel Group, a private company that has made it's owner fabulously wealthy by providing slum like accommodation at outrageous prices. Mould climbing the walls, exposed wiring, broken windows. The accommodation they provide no one should have to live in. They treat Asylum Seekers like animals, moving them at a moments notice with no consultation and no right to choose where they live. The Unity centre helps Asylum Seekers by campaigning on these issues and fighting for the rights of all Asylum seekers to be granted amnesty and be treated as human beings.

A Right Old Peace Up

Since 1982 Faslane Peace Camp has been a constant thorn in the side of the military establishment. Based next to HMNB Clyde, Britain's nuclear weapons base thirty miles outside Glasgow they constantly harass the operation of the base and campaign for an end to all war and against the threat of nuclear annihilation.

The submarines based at HMNB Clyde carry enough firepower to unleash destruction on a scale that has never been seen before. If it were to be unleashed large portions of the planet would be uninhabitable for millennia and many millions would die.

Those that live at the camp also take action against all parts of the military industrial complex in Scotland not just the HMNB Clyde.
